**Water Well for Irrigation System
Needs Repair**

Our water well was installed many years ago and we were informed in August that it is **badly in need of repair**. In fact, since its main purpose is to provide water for our irrigation system, we really need it up and running again. Thanks be to God we did have some rain to help keep the grass and trees alive after the well stopped working.

Please help us to restore our water well.
We are told that it could cost as much as \$15,000 to fix the broken pipe and the pump. It is very deep and the repair has to be done very carefully so that the well can function again without problems.

*Let nothing disturb you,
Let nothing frighten you,
All things pass away.
God never changes.
Patience obtains everything.
Whoever possesses God
wants for nothing.
God alone suffices.*
